THE SCHOOL NEWS.

Excellent Showing Made by Pupils in Miss Melton's School—Growing Interest in the Inter-School Contest.

Visitors' day was observed at the North Side school on last Friday, and about fifteen or twenty persons were present to inspect the work of the school. An interesting exhibit in drawing, writing, sewing and number work was prepared by Miss Melton's pupils for the occasion. The program opened with several songs by the pupils and was closed by a spelling match. All of the work was excellent, and Miss Melton deserves to be commended highly for the success she has attained with her pupils.

At the Rice boarding-school the following students have been selected to represent that school in the inter-school contest at Globe: Corna Gorstas, who will speak the selection entitled "The Boy That Moved Next Door," and Willie Gana, who will speak "The Bogle Upstairs."

The pupils of the Wheatfields Public school have decided to send two representatives to the inter-school contest in declamation which will be held in Globe on February 28.

The recent epidemic of colds and sore throat has abated and the attendance in all of the schools is about normal again. It is hoped that parents will put forth every effort to keep their children in school and to have their attendance regular. No promotion cards will be given to pupils who are continually absent or irregular in their attendance without a satisfactory reason.

The pupils and patrons of the Central school are still patiently waiting for the long-promised railroad crossing on Push street, which thus far has failed to materialize. Perhaps this street is going back on its usual reputation for energy and "push."

Judge P. C. Robertson will deliver the prizes for scholarship and deportment to the pupils of the various schools in Globe on or about February 1. The judge takes a keen interest in school affairs, and especially in the schools of Globe.

The enterprising youngster who started the report last week that the public schools of Globe would close last Friday should be given a hand some leather medal for his "unappreciated pains" in such a worthy cause.

Dr. Clark has promised to deliver a lecture on the X-ray to the pupils of the public school at an early date. In view of the recent interest awakened in this subject the lecture will be of more than ordinary interest. Other lectures will be given by the physicians of Globe on medical topics of general interest at an early date.

The girls of the Seventh grade expect to organize a basket ball team this week to compete with the one already organized in the Eighth.

J. J. Keegan does not spare any expense or trouble in making his place of business attractive and comfortable for his patrons so that enjoyable recreation can be indulged in with perfect satisfaction. His last improvement has been on his fifteen ball pool table. He recently sent his table rails to the factory and had the latest improved Monarch cushions placed thereon. He has also added a new first class bed-cloth to each table, as well as two sets of new pool balls, one plain red and the other the numbered or rotation balls, and has had the tables leveled and put in perfect condition, so that it is a pleasure to play on them. He has two fifteen-ball pool tables 4x9 feet in size, and two billiard tables, one 4x8 and the other 4x9 feet, all with Monarch cushions. The billiard tables and one of the pool tables were made by the Brunswick-Balke-Collender Co. and the other is a Stevens table. With the late improvements they are as good and perfect as any tables made.

It may be interesting to the sporting element of this city, as well as other Arizona towns, to learn that a heavy and interesting short-card gambling game was in progress early this morning behind closed doors in the Anheuser saloon, says the Prescott Journal-Miner, the participants being five in number and the game played, "round the table stud." Over \$5,000 in gold was on the table, and as much more in paper was "in reach." Some of the calls were for as high as \$1,000, and when the game terminated over \$3,000 was lost. Spectators of the event state that it was a genuine reminder of the halcyon days gone by of long ago, and gives Prescott the distinction of being one of the best centers of sporting money in the southwest.

Some people are so constituted that they are never happy unless they have something to worry over.
